

STORM RAGES DOWN COAST BRINGING WRECK

**Ships Caught in Swelling Sea
Fly Signals of
Distress**

FLOOD IN NORTH BRINGS TRAINS TO STANDSTILL

**Portland Fears Inundation; Is-
lands Under Water in the
Sacramento Valley**

SANTA BARBARA, Jan. 22.—Flying signals of distress, two vessels believed to be the steamer Navigator and the Associated Oil Company's barge, the Roderick Dhu, were sighted off Arguello light early today.

The vessels were inoporing heavily against the storm which is raging down the coast. The Dhu, with sixteen thousand barrels of oil, was stranded several hours yesterday at Redondo prior to being taken in tow by a navigator for San Francisco.

TRAFFIC STOPPED IN GREAT NORTH WEST

PORTLAND, Jan. 22.—The Northern Pacific today annulled temporarily all trains west of Spokane, as a result of floods. Half a mile of track is washed away, at Odesa, Wash., and several bridges destroyed.

All trains on the Washington divi-

(Continued on Page 8.)

ROOSEVELT WANTS RESOURCES SAVED

**Special Message to Congress on Report of
The Special Conservation
Commission**

President Roosevelt today sent to Congress a special message containing the report of the National Conservation Commission, and his recommendations based on the report.

After pointing out many important facts as to the wisdom and pressing necessity of conserving the national resources, not only for the present but for the future citizen, to whom this generation is responsible in a certain measure, the president says:

The National Conservation Commission wisely confined its report to the statement of facts and principles, leaving the Executive to recommend the specific steps to which these facts and principles inevitably lead. Accordingly, I call your attention to some of the larger features of the situation disclosed by the report, and to the action thereby clearly demanded for the general good.

Waters

The report says: Within recent months it has been recognized and demanded by the people, through many thousand delegates from all states assembled in convention in different sections of the country, that the waterways should and must be improved promptly and effectively as a means of maintaining national prosperity.

The first requisite for waterway improvement is the control of the waters in such manner as to reduce floods and regulate the regimen of the navigable rivers. The second requisite is development of terminals and connections in such manner as to regulate commerce.

Accordingly, I urge that the broad plan for the development of our waterways, recommended by the Inland Waterways Commission, be put in effect without delay. It provides for a

***** DROWN IN BURSTING OF DAM IN AFRICA *****

JOHANNESBURG, South Africa, Jan. 22.—Ten white miners and one hundred and fifty natives were drowned today by the flooding of the Knight mine in the Witwatersrand district. The bursting of a dam used in gold washing caused the accident.

WILMINGTON WANTS HARBOR APPROPRIATION

WILMINGTON, Jan. 22.—Attorney Wilson, representing the Consolidated Lumber company, has started for Washington with petitions from the city government and the chambers of commerce of Wilmington, San Pedro, Long Beach and Los Angeles, asking for a government appropriation of \$300,000 for the extension of the harbor development work at Wilmington Bay.

FAMOUS RUNNERS MAY COME TO PACIFIC COAST

LOS ANGELES, Jan. 22.—It is stated that Henry Berry has an option on proposed Marathon races to be run on this coast by "Tom" Longboat, Shrubbs and Dorando. It is believed such an event would be popular in Los Angeles and San Francisco.

CORONER DETAINS MEN AS WITNESSES

CHICAGO, Jan. 22.—Following a visit by the coroner to the scene of the holocaust, at the crib several miles from shore in which scores of men lost their lives, the police today announced the detention of Nathan Fultz, colored, the last man removed from the crib alive. Logan Miller and William Summers are also held. The men are not under arrest, but are held as witnesses for the inquest.

UNUSUAL OPPORTUNITY

SAYS CLAIM SHOULD BE DENIED HER

**Answer Filed Today in Action
of Mrs. Chaffee Against
the Estate**

MONEY SPENT VOLUNTARILY

**Three Claims for \$4000 Each
Against the Estate Have
Been Filed**

Words are not minced in the answer filed today by Attorney E. E. Keech in the action of Fannie French Carpenter Chaffee against Mrs. M. Alice Carpenter as administratrix of the estate of W. R. Carpenter. The plaintiff asks judgment against the estate for a sum of money over \$1700 on a claim that she loaned the money to Carpenter during his lifetime. Mrs. Chaffee, then Mrs. French, it will be remembered, left Santa Ana in company with Carpenter after he resigned from the school superintendency of the county and was with him when he died.

The answer denies that any marriage ceremony was performed whereby Mrs. French thought she became the wife of Carpenter on Aug. 11, 1906. The answer declares that Carpenter and Mrs. French spent the money the plaintiff claims in carrying on their secret intimacy, that the money was spent voluntarily. The court is asked to decree that Mrs. Chaffee's notes, signed by Carpenter, be declared void. Today three notes against the Carpenter estate were filed, each for \$4000. They are from the Home Savings Bank, W. H. Zimmerman and Mrs. M. Alice Carpenter.

BEACH TOWN WILL STAND BY ORDINANCE IT MADE

SANTA MONICA, Jan. 22.—The new ordinance covering the operation of electric street cars becomes effective today. The new measure provides that all cars shall make stops when desired at all street intersections. It was the passage of this law that caused the Los Angeles-Pacific to stop its flyers at Pier avenue, and that act was followed by the city council declaring the company's franchise forfeited.

All crews declining to stop when desired will be cited to appear in court.

PHELAN SAYS DEFER BILLS

That President Knows Situation and His Advice Should Be Heeded

**Roosevelt Declares Presence of
Fleet Here Today Would
Have Been Serious**

WASHINGTON, Jan. 22.—Ex-Mayor Phelan of San Francisco, told President Roosevelt today that he believed the California legislature would postpone anti-Japanese measures for two years, to determine positively whether Japanese immigration is increasing.

After the conference Phelan told the reporters that President Roosevelt declared he was doing all in his

***** NEARLY LOST HORSE IN CROSSING CREEK *****

A Santiago canyon rancher nearly lost a horse while attempting to cross the creek at the County Park yesterday. The horse fell into a deep hole. Assistance was given and the rig rescued.

power to restrict Japanese immigration, but did not recognize them as a class, believing such legislation should affect all foreigners. Phelan told the president that there was every evidence of an increase of Japanese coming into this country, despite all statistics to the contrary. He declared, however, that he believed it wise to wait a reasonable time, pending a fair demonstration of the agreement relative to immigration.

ROOSEVELT MAKES MOST LEVEL-HEADED REPLY

WASHINGTON, Jan. 22.—Californians here generally deplore the radical attitude of certain legislators in Sacramento, though expressing a regret that President Roosevelt did not allow the fleet to remain in the Pacific. President Roosevelt in reply says that if the fleet were in the Pacific now Japan naturally would assume that the action of the legislature had been instigated by the Federal government for the purpose of causing trouble.

SHIPS FACE DOOM TODAY

**Ensign and Sybil Marston Are
Pounding Heavily on
the Rocks**

**Great Waves Thirty Feet High
Are Dashing Over the
Ensign**

SANTA BARBARA, Jan. 22.—Both the schooner Ensign, aground at Naples, and the steamer Sybil Marston, that went ashore in the surf a few days ago, appear to be doomed today. Both vessels were driven further on the rocks by heavy seas last night, and are pounding badly today.

The monitor Cheyenne, the revenue cutter McCulloch, and the wrecking steamer Fulton, which returned from Naples last night, after spending some time in a vain attempt to shoot a line to the Ensign, returned to the scene of the wreck today. Naples reports today that the seas are running thirty feet high, and breaking entirely over the Ensign at high tide.

STUDENT BODY TO BID DR. GATES GOD SPEED

CLAREMONT, Jan. 22.—President Gates departure for Honolulu will be the latter part of this week, when all classes will be suspended that the entire student body may be at the station to see him off. Dr. Gates may visit New Zealand and Australia before returning in time for commencement exercises.

GRADUATES AT LONG BEACH

LONG BEACH, Jan. 22.—Sixty-four pupils of the Long Beach grammar schools will receive their diplomas for admission to the High School tomorrow. The mid-season High School graduating class numbers only three. These will remain, and take a post-graduate course until June.

32000 MEN REBEL AGAINST TYRANNY OF NEW YORK COPS

NEW YORK, Jan. 22.—The International Brotherhood of Teamsters, numbering 32,000, was reported today preparing to strike against the alleged reign of petty tyranny of the police. The teamsters allege that the police arrest them on petty charges so that the officers can leave their beats for several hours and take their prisoners to warm station houses.

FLOOD TEARS THROUGH RIVER'S BANK

**Dikes of Santa Ana Are Broken
in Several Places—
Men at Work**

LARGEST STREAM IN SEVERAL YEARS

**Fall Here Nearly Three Inches
for the Storm—Heavy at
County Park**

Water in the Santa Ana river, the highest in a number of years, has broken over the dikes in a number of places, and today dozens of men and teams are at work watching the dikes to protect weak spots and mending places where there are breaks. The best information obtainable is that the worst is still to come, and some of those in the lowlands are moving out.

The new channel of the river from the sewer farm to the head of Talbert Drainage Ditch No. 1 took what water came yesterday and late last night in good shape, and the ditch was cutting out excellently, but today the water rose very rapidly, and early this morning breaks were reported below Brooks corner, water going both east and west. Water broke out at the Von Schrititz place, and flooded it. A break in the dike built two years ago near the sewer farm was mended this morning, but at noon today there was great danger at another point. The ditch is cutting out well but cannot cut fast enough to provide for the flood. A place has broken on East Seventeenth street.

A swift stream is coming down the Santiago creek. At the county park 3.80 inches of water has fallen since yesterday morning. El Modena has had 3.55 for the storm.

About an inch fell in Santa Ana last night. Justin Copeland had .94 from 4 o'clock yesterday to 8 this morning, with 2.94 for the storm and 7.53 for the season. The S. P. depot had 1.87 between 7 yesterday morning and 7 this morning. The Irvine ranchhouse gauge showed 1.96 since yesterday morning with 2.46 for the storm. The old ranchhouse had 1.65 since yesterday morning.

The flood condition this afternoon is reported as becoming more serious. Crops will be damaged. Some celery is under water.

CONGRESS IS FOR 2 SHIPS

**Senate Wants Letters About
Alleged Loan of Sugar
Company**

WASHINGTON, Jan. 22.—The House this afternoon, by a vote of 108 to 158, defeated the amendment by Burton of Ohio, making an appropriation for one instead of two battleships. This means that the two battleship program will stand.

SENATE WANTS TO KNOW ABOUT THAT SUGAR LOAN

The Senate adopted, without debate, the Culberson resolution asking Attorney General Bonaparte for the correspondence in connection with the alleged loan made by the American Sugar Refinery to the Pennsylvania Refining Company, in consideration for which the latter agreed to quit business.

***** UNITED MINE WORKERS WILL AID JOHN MITCHELL *****

INDIANAPOLIS, Jan. 22.—The United Mine Workers' convention today appropriated twenty-five hundred dollars for the defense of John Mitchell, who was recently held in contempt of the supreme court of the District of Columbia.

LUPTON MAKES REPORT OF QUAKE EXPERIENCES

WASHINGTON, Jan. 22.—The state department today received a mailed report from Vice-Consul Lupton, from Messina, detailing the terrible experience at the time of the earthquake disaster.

WANTS OLD MISSIONS LOOKED AFTER BY STATE

SACRAMENTO, Jan. 22.—Frank Miller, proprietor of Glenwood Inn at Riverside, is here in an endeavor to enlist the support of Gov. Gillett and the legislature in a movement for the creation of a state commission that shall have supervision of the old missions, to aid in restoring them and in keeping them in repair.

As there are commissions for various other historic interests it is hoped that this movement will be favored.

ASIAN QUAKE WAS OF GREAT NATURE

VALETTA, Jan. 22.—The British battleship Canopus was today ordered to prepare to proceed to Smyrna in Asia Minor should the earthquake situation demand the presence of the warship. Late reports increase the seriousness of the temblor. Reports from relief parties have been meagre.

—Another lot of hams, for Saturday only, at 13 cents per pound. Santa Ana Meat Market, cor. 4th and Main.

SUPERVISORS WILL TAKE SOME ACTION

**Recommendation On Salary Question Going
In From Individuals to
Melrose**

When the Board of Supervisors meets next week it will have up for consideration the requests of four county officers for additional deputies and the request of one county officer to be taken from the fee basis and placed on a straight salary basis. It is almost certain that the supervisors will do as Assemblyman Melrose has asked them to do, make an investigation and a recommendation to him concerning the requests for changes in compensation. It is claimed that the Board of Supervisors is very familiar with the workings of the different county officers and is in a position to know whether or not the claims for office help are just.

Unless Assemblyman Melrose asks that the Chamber of Commerce appoint a committee to make an investigation and that body sees fit to do so, it is more than likely that the only recommendations that will go to the assemblyman will be those of the Board of Supervisors and such individuals as may express to him their opinions concerning the requests for help. That some individuals have already done so in regard to some of the offices is well known at the courthouse. It is said there that Attorney E. E. Keech and Attorney H. C. Head, both men claiming familiarity with the workings of the county clerk's office, have written to Assemblyman Melrose saying that the request of County Clerk Williams for a court deputy is a just claim, and for the benefit of the public service. Similar letters concerning other officers have undoubtedly been written.

The five requests for adjustment are as follows:

The county assessor now draws a salary of \$3500 and has seven field deputies at \$100 a month, for four months, totaling \$6300. The office asks for the salary at \$3500, one office deputy at \$1200 per year, and nine field deputies at \$125 per month for four months, totaling \$9200. The tax collector now gets \$2000 per year. He asks for \$2000 per year, one office deputy at \$1200 per year, six clerks for four months at \$60, totaling \$4640. The clerk gets \$3250. He asks for another deputy at \$115 per month, totaling \$4630. The auditor gets \$2000, and in his office is a deputy for gathering an annual financial report, at \$40 per month, totaling \$2480 for the office. He asks for a deputy at \$1200 per year, totaling the office at \$3680, should the \$40 a month financial report deputy be kept on. The county surveyor's office is on a fee basis. For the last year the office was worth about \$100 per month. Previous to that time it was hardly worth over \$300 a year. The request is for a salary of \$1800. One of the main questions at issue in reaching an understanding as to the justice of the request of the county officers for changes in compensation is this: "Is the present income of the office, cash in pocket to the incumbent, sufficient, and is it obtained without driving help and working longer hours than is customary in ordinary business?" No one but the officers themselves can know exactly what their offices are worth to them, especially so when the amount they pay their deputies is not a matter of public record; but an estimate of the effect the adjustments proposed would have may be made as follows, the Register believing the same to be fairly accurate, or

(Continued on Page 5)

(Continued on Page Four)

CELERY MEN FIGURE 625 CARLOADS STILL UNCUT

SPRAYING FIGHT LIKELY TO WIN

Prospects Are That All Crop
Left Will be Saved for
Shipment

REPORT GIVEN OF ISLAND CONDITIONS

Next Year's Crop in the North
Will be Tremendous—
Smeltzer Notes

SMELTZER, Jan. 21.—After four days of good celery cutting weather we are just commencing on another spell of rainy weather, and by noon rain will be coming down in torrents. If present indications count for anything. Yesterday Mr. Hazeltine, Mr. Moore and the field superintendent got together to figure out the amount of celery still uncut and after long discussion decided on some 625 cars still to move if the crop can be all saved. However, this kind of warm and wet rain and the fogs of the peatlands furnish ideal conditions for the spread of blight and the big "battleship" Golden West power spray as well as the hand machines of the

smaller ranchers, are doing yeoman service and it really looks as if practically the entire crop would be saved in good condition for market.

Shipments are running from twenty-five to thirty-five cars daily total out on the night celery train, and orders are fairly plentiful and prices firm. Total shipments from Orange county to date amount to about 925 to 950 cars counting in local shipments and smaller dealers beside the California Vegetable Union's eastern business.

Back From North

Mr. and Mrs. H. S. Hazeltine returned from the northern districts on the Sacramento and San Joaquin rivers last week and Mr. Hazeltine reports everything in satisfactory condition. The celery acreage for this season is very small and total shipments will amount to some 350 cars, but next year there will be the rise of 4165 acres and they can then look for some lively times up there as all this has to be moved out by boat and that means an enormous amount of extra expense and work.

According to the best advices the storm waters have not hurt the celery country, as the part of the river with highest levees dams the water up on the ones with lower ones, and the levees on Jersey, Bradford and other islands in celery are the best on the river. One has to take a boat to get about up there, and, as steamboat service consumes too much time in getting around, the C. V. U. will soon let a contract in San Francisco to build an up-to-date gasoline launch to take care of their work.

Some may sing of the joys of country life, but as the writer looks out on the dreary expanse of mud and water, misnamed a street, between him and the boarding house dinner table to a still more dismal and cheerless prospect of cut out celery fields and rain and mist and hears the storm beat against the house, he, being a city man, thinks like the New Yorker, "This may be all right for they who like it, but little old Los Angeles is good enough for me." He is the only one of the entire celery force who managed to get away to Los Angeles last Sunday and spent a few pleasant hours in town, returning the same afternoon and working that night to get the Sunday cut of twenty-two cars out.

Some Changes
There have been some few changes made in the force of the Golden West.

W. G. Russell left and Jake Grano had his phonograph repaired and moved into the vacant house, from whence the music he now renders sounds even better than before. Harry Woodington has hired Wm. McGrail, a young man recently from the east, and he will move into the vacated Grano house and take up Mr. Russell's work on the ranch.

It is learned from an authoritative source that Mr. Walter Young of Kenda & Young will soon move to Los Angeles where he is to engage in the manufacture and sale of a new soda fountain beverage which is said to be far superior to Coco Cola.

We have the news from headquarters that within thirty days our Smeltzer telephone system will have free service to and from Santa Ana, the contract, it is said, having been already signed. This is an improvement that will be decidedly advantageous to all concerned and should nearly settle the mail routes business definitely in favor of Santa Ana as it in effect turns Smeltzer, Westminster and Wintersburg into suburban districts of Santa Ana.

Will Sharratt and Frank Carlyle are our two busiest men, as they have the handling of the incoming of shock and making of crates, respectively. Sharratt has his gangs working all week and Sunday too, and has unloaded ten cars of shock so far this week.

Mr. Geo. Prince manager of the Los Angeles district for C. V. U., was in Smeltzer a few hours Wednesday looking at the Golden West cabbage crop. Mr. Prince says cabbage will be ready to ship Feb. 15 and Mr. Woodington of the Golden West has set Feb. 10 as his official time.

Still, even if it does rain, California looks good to the writer as he has an eastern letter telling of temperature of 18 degrees below zero.

AMUSEMENTS

The coming of "Arizona" to the Grand on Jan. 25 will be marked as a red letter engagement by the theatre-goers, who will have witnessed performances of this excellent play in New York, Philadelphia, Boston, Washington, or Chicago. New York critics have unanimously declared that it is the best play which Augustus Thomas, author of "Alabama" and "In Missouri" has yet given to the stage. Mr. Sill, in the Evening World, said of "Arizona" on the Tuesday following the first production at the Herald Square Theatre: "It is the best play seen on Broadway in a generation." As the title indicates, "Arizona" has its scenes in the picturesque Southwestern territory. It is by no means a "wild and woolly" melodrama, and although it is replete with stirring acting and embraces one tragic climax which would probably claim melodramatic classification were it not relieved by a background of unobtrusive humor and picturesque romance. It is an exquisite scenic production.

UNCLAIMED LETTERS

An Extraordinary Offer

THE GREATEST EVER MADE BY ANY NEWSPAPER

Three Great National Magazines

ABSOLUTELY FREE

For Old and New Subscribers

BUSINESS men advertise—frequently they make tremendous sacrifices to attract new customers. We believe in this policy, and practice what we preach by doing something each year to attract new subscribers and to favor our old readers who are entitled to an occasional good thing.

After pending several months in search of a premium, we finally decided we could not offer a better or more useful or attractive premium than a combination of high-class home magazines, and chose "World's Events," "Home Herald" and "Vick's Magazine" on account of their high character and literary quality.

We do not hesitate to say that we regard our offer this year to be the most extraordinary ever offered by any newspaper in this vicinity. We offer these three magazines in connection with a new or renewal subscription to our own paper on such favorable terms that we do not see how it is possible for a single reader not to take advantage of it. We want you to read every word of this announcement. Read the description below of the three magazines. Read the terms of our offer and accept at once.

World's Events

"THE WORLD'S NEWS AND THE WORLD'S VIEWS"

World's Events is a modern magazine of current thought and action, issued on the first of every month and profusely illustrated. It contains the world's news and the world's views covering every important event of social, scientific, political and educational character. The latest discoveries in science and invention, commerce and industry are noted in its pages, illustrated and discussed. The larger features of the month are treated in feature articles by experts, while the smaller happenings are condensed and classified and presented in an interesting and telling manner. Side-lights on celebrities, the current stories and anecdotes of the great and near great, are scattered through its pages in a way that makes these characters real and interesting to the general reader. Those who wish to know the trend of world history and world thought without reading hundreds of papers may do so easily through the assistance of this magnificent publication. It contains the best thought of the day on the problems of the age.

World's Events is absolutely spotless on every page and will not accept any of the undesirable advertising which makes most of the current magazines objectionable for family reading. It is the ideal monthly for the home. It has 36 pages with cover in colors.

Home Herald

"A PAPER WITH A PURPOSE"

The Home Herald is an independent family weekly of twenty pages, fully illustrated. It is one of the most reliable, popular and influential publications in existence. It has an enormous circulation all over the world and it has probably a larger percentage of subscribers who renew their subscriptions year after year than any other weekly journal.

The beautiful covers in colors are prepared by well known artists. Its fearless editorial treatment of current events and its feature articles by men prominent in public life make the Home Herald indispensable to those who desire to keep in touch with public opinion affecting great issues and problems in the home.

Among some of the well known contributors in recent numbers have been Wm. Howard Taft, William Jennings Bryan, James S. Sherman, Governor Hanly of Indiana, Governor Folk of Missouri, Dr. Washington Gladden, John Balcolm Shaw, Charles M. Sheldon, Booker T. Washington, John V. Farwell, Bishop Samuel Fallows, G. Campbell Morgan, John C. Havemeyer, President Blanchard and Dr. A. C. Dixon.

Judge McKenzie Cleland who has been a subscriber for fifteen years has recently said:

"Of all the papers that come to my house, the Home Herald is one of the brightest and best and most highly prized. My children are always eager for it and we all like it and feel that we could not do without it. I enjoy a paper that dares to be original, independent and fearless."

Vick's Magazine

"A PERIODICAL OF PROGRESS"

Vick's Magazine, founded in 1878 by the eminent pioneer seedman and philanthropist, James Vick, has ever been the leader among the publications of its class. It is essentially a home magazine and maintains that direct personal interest in its subscribers, in the same way that its founder did over thirty years ago.

Vick's Magazine is distinctively a "Booster Magazine," boosting every good thing worth boosting. Therefore, the chief aim of Vick's is to show how the graces of human nature may best be cultivated by giving in cheery and breezy narrative, story or verse, interesting exhibits of good things that may be done in the cultivation of a light heart and a happy good nature.

Vick's Magazine has some very special numbers coming, among them, "The Enjoyable Farm Home," "The Orchard Bountiful," "The Home Garden," "The Country Beautiful," etc. All this matter by the most renowned writers in the United States.

Vick's Magazine has a real, positive and practical value to its subscribers. Through its many departments, in charge of a corps of capable editors, it reaches every interest of the home. Notice the following interesting departments: Floral, Garden, Household, Clever Ways of Doing Things, Fashions, Dressmaking, Fancy Work, Home Building, Question Box, Poultry, etc. Vick's Covers are in two colors, 36 pages, printed on good stock.

Here Is Our Offer

World's Events, 12 numbers.....	\$1.00
Home Herald, 13 numbers (special)50
Vick's Magazine, 12 numbers.....	.50
Santa Ana Daily Register (by mail)	4.00
Total subscription price	\$6.00

ALL for \$4.00 a year if the Register is sent by mail
All for \$5.00 a year if the Register is sent by carrier

N. B.—The only condition imposed is—that the subscription shall be paid a year in advance. And it would pay every one of our nearly 2500 subscribers to do this, whether they got a premium or not or it would save each of them \$1.00 if served by carrier or \$2.00 if served by mail, and all inconvenience or annoyance of having collectors call on them.

BIG RANCH AT VILLA PARK SOLD

Three Orange Men Have Purchased Sixty Acres Known as the Briggs' Place

The demand for country property in this vicinity is great just at present. Real estate men are seen in all directions showing the prospective buyer ranch property, particularly orange and walnut groves. One of the biggest sales made in the last few days was that of the Briggs' ranch on North Tustin avenue, three and a half miles northeast of Orange. This is one of the finest ranches in this locality, containing in all 80 acres, 60 of which is tillable land and 20 river land purchased for water stock. The river land is located four miles from the

ranch. 35 acres are in oranges, five in lemons and the remainder in grain. The purchasers are Keller E. Watson, Dr. Royer and Dr. McMullan. The purchase includes the ranch buildings, house, fine stable, etc., also all the live stock, implements, pumping plant and other appurtenances of the property.

Would Lift Debt

Orange Post: The members of the Orange Methodist church are making a laudable effort to lift their church debt, \$3600, by the 1st of April. A debt on a church is an incubus that should be removed as quickly as possible. It might be well to bear in mind that the other churches and those outside the church are under an obligation to the Methodists for the use of their church at many delightful union meetings which would otherwise be impossible, there being no other church in town large enough to hold the united congregations. If all will "boost" according to their ability, the burden will not be hard to lift.

A Hard One

Mrs. Nuvoo Reash—Did you get my letter?
Mrs. Bloodgood—The one where you asked me to your holiday home party?
Mrs. Nuvoo Reash—Exactly.
Mrs. Bloodgood—No, I didn't get it.

PROGRAM OF THE MUSICAL

Following is the program of the musical to be given this evening in the M. E. church:

Overture, "Scotch Melodies"—Orange orchestra.
Vocal solo, "A May Morning"—Mrs. C. A. Palmer.

Reading—Miss Dean.
Trombone solo, "Sweet Evening Star"—Dr. Vance, accompanied by Orange orchestra.

Piano solo—Miss Cessna.
Cornet duet, "I Would that My Love" (Mendelssohn) Evan Davis, Dr. Ida Parker, accompanied by Orange orchestra.

Reading—Miss Dean.
Violin solo—Julius Huff.

"Wedding of the Winds"—Orange orchestra.

Given under the auspices of the Ladies Aid. No admission. A silver offering will be taken.

Should the rain continue the musical will be postponed to a date which will be given later.

MISS GUENTHER IS GUEST OF HONOR

She is to be Married Very Soon to Mr. Ernest Bandick

The Young Peoples Society of the German church tendered Miss Clara Guenther a party in the hall of the German school on Wednesday evening. Miss Guenther is one of the most popular young ladies of the German society and it is with great regret that they give her up to Mr. Ernest Bandick, to whom she is to be married on Jan. 27.

The young people will make their home in the north, where Mr. Bandick has interests and where he has been for some time.

PERSONAL

It will be of interest to her many Orange friends to hear that Miss Mabel Yourex, who taught music and drawing here two years ago, has accepted a position in the Imperial schools, teaching the sixth grade. She has been in Ventura the last year and a half.

Miss Brehm was the guest of the Misses Scarritt during her stay in Orange.

A. J. Sanders made a flying trip to San Jacinto this week on business.

Little Leonard Field is ill with a cold at the home of his aunt, Mrs. Merrill in El Modena.

Mrs. Wm. Van Doren of McPherson has been numbered among the sick for the last week.

Miss Brehm, the temperance lec-

Making Good.

There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunks.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popularity. While scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve-me it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equaled.

turer sent out by the general association of the Presbyterian church, spoke at the Presbyterian church of Orange Wednesday evening. The lecture was full of interest to all. The audience was not so large as could have been wished on account of the rain.

Mr. and Mrs. N. T. Edwards have returned from their trip to Yuma and other Arizona points.

A number of Orange people were deterred by rain from seeing "A Winter's Tale" last evening in Santa Ana.

Mrs. Lottie Getchell is entertaining Mrs. W. B. Winans of Santa Ana and Mrs. Della Griffin of Central City, Iowa.

RACES LURE BOYS TO THEFT AND DISGRACE

Three boys have been expelled from the Berkeley High School and a fourth suspended indefinitely for a series of thefts to which they have confessed, says the San Francisco Bulletin of Wednesday last. For more than two years they have been stealing from their fellow-pupils and teachers, and—worst of all—with the proceeds of their crimes they have been getting drunk in the college town and in this city and playing the races at Emeryville and in poolrooms at Berkeley.

The boys expelled are Gerald McKinlay, son of Congressman Duncan McKinlay; Herbert Merritt and William Stone. Wallace Scott is the boy suspended.

Shamefacedly, the four confessed to the school authorities, and one and all have admitted that they have played the races.

It has long been admitted by everybody, even the thieves, that the lowest, meanest order of crime, was "to steal candy from children." It has remained for the bookmakers at Emeryville and the poolroom proprietors to find a more despicable thing to do, and—to do it; they have been the Fagins, the receivers of goods stolen by school boys in their teens, from their fellow pupils, girls and boys; they have accepted from a gang of youthful thieves at the Berkeley High School stolen car fares, the proceeds of thefts of books, fountain pens, pins and other trinkets, overshoes, umbrellas, purses—everything that could be carried off. More than that, they have sapped the morals of four boys that have confessed, and probably of numerous others who have not yet been brought to book for their pilferings.

New Rice Industry

The National Department of Agriculture benefits all sections. A comparatively few years ago practically all of our home crop of rice was grown on the Atlantic coast; the methods of handling it were more or less primitive, the production small, and the country was a large importer of rice. Twenty or twenty-five years ago the coastal plains states of Louisiana and Texas were pointed out as a region for successful rice culture. They were used largely as cattle ranges and were selling at from \$1 to \$2 per acre. With the introduction and successful production of rice, the cost of land rapidly increased, and the farmers of this region saw the need for improved methods of handling this crop. Many were pioneers from the great wheat-growing states due north—Iowa, Kansas, Minnesota, Wisconsin, Illinois and Indiana. They brought south with them the implements they had used in growing wheat—the gang-plough, drill, self-binder, header and other modern implements—and methods and ideas never before applied to rice culture, making it possible to produce a much larger quantity of rice per man than ever before.

A question arose as to the competition of Oriental countries in the production of rice, and one of the department's most capable men demonstrated that one American, with modern equipment, can produce as much rice as three hundred Orientals.—National Magazine for October.

DR. GATES ON COLLEGE BEGGING

On being interviewed about his reasons for resigning from the presidency of Pomona college with which he has been identified for over twenty years, the educator said among other things:

"I know of more than one instance where college presidents who were physically strong men, have fallen dead under these financial burdens. For a man of proper self-respect, who would rather starve than ask anything for himself, to be put in such positions as are constantly involved in this work shows that there is something wrong in the system.

"If it is worth while to have college presidents, some way will be devised as time goes on by which they can be freed from tasks that are irrelevant to their legitimate work, and which tend to save them from sacrificing the true dignity which should go with the position."

WANT LOWER ASSESSMENT

Huntington Beach Committee Appointed to Take it Up With Assessor Scott

Huntington Beach News: Simple justice seems to require that realty values here for assessment purposes should be lowered by the county tax assessor. This matter was taken up by the local Board of Trade last summer and the county assessor would take no action because he claimed that it was at that time too late to disturb the assessments which had already been made. The time has again arrived when assessments are to be determined and whatever representations are to be made to the county officials should be made at once.

Acting upon this idea, the Board of Trade at its regular meeting Monday evening named a committee consisting of C. W. Warner, J. W. Shirley, D. O. Stewart, T. B. Talbert and A. L. Reed to take up the matter with the county assessor.

The Airship Person

Has seen the airship face?
The wrinkled, squinted eye—
Teeth tightly skinned to meet the wind
Along the trackless sky?

Has seen the airship form?
Back bent to look below—
Each arm ajar to touch a star
As through the clouds they blow.

Has heard the airship voice?
That husky ring of joy,
With frightful blend, as end o'er end
It bellows, "Land ahoy!"
—Laura Sheldon in Philadelphia Ledger.

COUNTY NEWSPAPERS ON SALARY INCREASE

So far as our county exchanges have come in since the publication of the proposed increase of salaries of several county officers, we find but one of them inclined to be ugly about it. Here are the comments:

Fullerton News: Assemblyman Melrose will introduce a bill in the legislature to provide for the additional assistance of deputies in the offices of the county clerk, assessor, tax collector and auditor, the reason given for an increase of officials being that the work has grown too large for the present force to handle.

Orange Post: A movement is on foot to have the legislature increase the salaries of a number of the Orange county officers by providing them with deputies. Personally we haven't looked into the matter; but incidentally we learned something of the large amount of work in the tax collector's office and believe the compensation of that officer ought to be increased. If the other officers mentioned have as good reasons as the tax collector, their salaries ought to be raised too; but our assemblyman ought to be assured of the facts first.

Fullerton Tribune: We do not think these new deputies are needed. If some of the county officials would spend a little more time at work in their own offices instead of riding around the county in high-priced automobiles they would not need deputies.

Additional taxes on the people of Orange county is the only thing some people have in view.

The highly paid and little worked county officials will probably get the many new deputies and the over-assessed taxpayers will foot the bills, and then the county officials can spend six days a week running around the county. But of course they will show up the first of each month to draw the fat salaries which they never earned, while the over-taxed farmer and business man works fifteen hours a day to meet his expenses and taxes.

Do come to the assistance of the kid-gloved, over-worked (?) county officials.

HOW THEY DO IT

The crucial moment has arrived for the anti-race track bill. It has passed the house, BUT NOT THE SENATE, and it is in the senate that the boodling gamblers expect to defeat it—not because the senators are more corrupt than the assemblymen, but because there are fewer of them—fewer votes are needed, fewer legislators to be coerced or bribed.

The manner of conducting the fight is most truthfully and concisely stated by Editor Rowell of the Fresno Republican, who has already been at Sacramento observing things political:

"This is the way they do it: There is a majority in favor of the race-track bill in both houses of the legislature, and there is a racetrack lobby in Sacramento, with Colonel Dan Burns, (once almost a senator from California) furnishing the brains to win away votes of that majority. And it takes brains. Mere argument is cheap; anybody can do that. But the racetrack lobby, having no arguments, is wise enough not to make any. That is where it differs from the grafters' propaganda. What it is after is not vindication, but votes, and there are better ways than argument to get votes. One way is boodling; the other is coercion. The boodling has not appeared yet, but the coercive tactics are already hard at work.

"And this is how they do it: Two legislators from Alameda county are politically beholden to Coroner Tisdale. So a bill is slipped in to take the coroner's fees away from him and put him on a low salary. If his legislators stand in, the bill will not be pressed. If they vote for the anti-gambling law, the bill will be pulled out of committee and being probably a just law anyway, it may pass. If the Sacramento valley legislators want their reclamation district bills reported favorably, they will do well to vote "right" on the race-track bill. The Davisville farm will get its appropriation with less fuss if the representative of that district falls down on the racetrack bill. Fresno will find the pathway of the normal school bill much smoother if Messrs. Cartwright, Drew and Odom will consent to misrepresent their constituents morally in order to aid them materially. The direct primary bill will go better if its advocates keep still about

BOYS' CLOTHING REDUCED

Take advantage of our reduced prices on boys' suits and overcoats. It will pay you.

the racetrack gambling. Several doubtful legislators are already frightened at mysterious county division bills. And the margin is narrow enough so that if even a few yield to those temptations, the gamblers are sure of their pickings for two years more.

"This is the way it is done. And a damnably bad way it is. AND REMEMBER, WE ARE DESCRIBING NOT WHAT MIGHT BE DONE, BUT WHAT IS BEING DONE RIGHT NOW, DILIGENTLY AND PERSISTENTLY. There is only one remedy. Let each member understand that if he comes home with his district's pet bill defeated, nothing worse will happen to him than the chance of getting defeated himself, next time. BUT IF, TO SAVE THAT BILL, HE SURRENDERS HIS OWN CONVICTION AND THE CONSCIENCE OF HIS DISTRICT ON THE RACETRACK BILL, LET HIM REALIZE THAT HE WILL BE A MORE WELCOMED RESIDENT OF EMERYVILLE THAN OF HIS HOME TOWN, WHEN HE RETURNS. If a legislator must needs be ruled by fear, the most wholesome of it is fear of his own constituents."

The contrast between the condition of the paved and unpaved streets at this time emphasizes the attractiveness and value of paved streets. A merchant with rear and side entrances off unpaved streets said yesterday that he would gladly pay enough additional rent to cover interest and wear and tear on the cost of paving, simply for the benefits he would derive in the way of greater cleanliness in his store, to say nothing of the valuable advantage of the greater convenience and attractiveness of his place of business.

High Grade Foods

and choice provisions are the kind we furnish you. Genuine sugar cured Eastern hams and bacon. Not the kind the packer is ashamed to put his name on.

Remember that fine teas and coffees have been our specialties for years and we offer you the very best the market affords at prices no higher than are asked for inferior grades.

Parsons & McNaught

ROOSEVELT WANTS RESOURCES SAVED

(Continued from Page 1.)

similar areas on private and national forest lands during the past year, the government fire patrol saved commercial timber worth as much as the total cost of caring for all national forests at the present rate for about ten years.

I especially commend to the Congress the facts presented by the commission as to the relation between forests and stream flow in its bearing upon the importance of the forest lands in national ownership. Without an understanding of this intimate relation the conservation of both these natural resources must largely fail.

The time has fully arrived for recognizing in the law the responsibility to the community, the state, and the nation which rests upon the private owners of private lands. The ownership of forest land is a public trust. The man who would so handle his forest as to cause erosion and to injure stream flow must be not only educated but he must be controlled.

The report of the National Conservation Commission says:

Forests in private ownership can not be conserved unless they are protected from fire. We need good fire laws, well enforced. Fire control is impossible without an adequate force of men whose sole duty is fire patrol during the dangerous season.

I hold as first among the tasks before the states and the nation in their respective shares in forest conservation the organization of efficient fire patrols and the enactment of good fire laws on the part of the states.

The report says further:

Present tax laws prevent reforestation of cut-over land and the perpetuation of existing forests by use. An annual tax upon the land itself, exclusive of the timber, and a tax upon the timber when cut is well adapted to actual conditions of forest investment and is practicable and certain. It is far better that forest land should pay a moderate tax permanently than that it should pay an excessive revenue temporarily and then cease to yield at all.

Second only in importance to good fire laws well enforced is the enactment of tax laws which will permit the perpetuation of existing forests by use.

Lands

With our increasing population the time is not far distant when the problem of supplying our people with food will become pressing. The possible additions to our arable area are not great, and it will become necessary to

obtain much larger crops from the land, as is now done in more densely settled countries. To do this, we need better farm practice and better strains of wheat, corn, and other crop plants, with a reduction in losses from soil erosion and from insects, animals, and other enemies of agriculture. The United States Department of Agriculture is doing excellent work in these directions and it should be liberally supported.

The remaining public lands should be classified and arable lands disposed of to home makers. In their interest the timber and stone act and the commutation clause of the homestead act should be repealed, and the desert-land law should be modified in accordance with the recommendations of the Public Lands Commission.

The use of the public grazing lands should be regulated in such ways as to improve and conserve their value.

Rights to the surface of the public land should be separated from rights to forests upon it and to minerals beneath it, and these should be subject to separate disposal.

The coal, oil, gas, and phosphate rights still remaining with the government should be withdrawn from entry and leased under conditions favorable for economic development.

Minerals

The accompanying reports show that the consumption of nearly all of our mineral products is increasing more rapidly than our population. Our mineral waste is about one-sixth of our product, or nearly \$1,000,000 for each working day in the year. The loss of structural materials through fire is about another million a day. The loss of life in the mines is appalling. The larger part of these losses of life and property can be avoided.

Our mineral resources are limited in quantity and can not be increased or reproduced. With the rapidly increasing rate of consumption the supply will be exhausted while yet the nation is in its infancy, unless better methods are devised or substitutes are found. Further investigation is urgently needed in order to improve methods and to develop and apply substitutes.

It is of the utmost importance that a Bureau of Mines be established in accordance with the pending bill to reduce the loss of life in mines and the waste of mineral resources and to investigate the methods and substitutes for prolonging the duration of our mineral supplies. Both the need and the public demand for such a bureau are rapidly becoming more urgent. It should cooperate with the states in supplying data to serve as a basis for state mine regulations. The establishment of this bureau will mean merely the transfer from other bureaus of work which it is agreed should be transferred and slightly enlarged and

reorganized for these purposes.

Conclusions

The joint conference already mentioned adopted two resolutions to which I call your special attention. The first was intended to promote co-operation between the states and the nation upon all of the great questions here discussed. It is as follows:

Resolved, That a joint committee be appointed by the chairman, to consist of six members of state commissions and three members of the National Conservation Commission, whose duty it shall be to prepare and present to the state and national commissions, and through them to the governors and the president, a plan for united action by all organizations concerned with the conservation of natural resources. (On motion of Governor Noel, of Mississippi, the chairman and secretary of the conference were added to and constituted a part of this committee.)

The second resolution of the joint conference to which I refer calls upon the congress to provide the means for such cooperation. The principle of the community of interest among all our people in the great natural resources runs through the report of the National Conservation Commission and the proceedings of the joint conference. These resources, which form the common basis of our welfare, can be wisely developed, rightly used, and prudently conserved only by the common action of all the people, acting through their representatives in state and nation. Hence the fundamental necessity for cooperation. Without it we shall accomplish but little, and that little badly. The resolution follows:

We also especially urge on the congress of the United States the high desirability of maintaining a national commission on the conservation of the resources of the country, empowered to cooperate with state commissions to the end that every sovereign commonwealth and every section of the country may attain the high degree of prosperity and the sureness of perpetuity naturally arising in the abundance of resources and the vigor, intelligence, and patriotism of our people.

In this recommendation I most heartily concur, and I urge that an appropriation of at least \$50,000 be made to cover the expenses of the National Conservation Commission for necessary rent, assistance, and traveling expenses. This is a very small sum. I know of no other way in which the appropriation of so small a sum would result in so large a benefit to the whole nation.

marriage uniting the two had taken place in October last in San Diego. The new Mrs. Bishop was Mrs. Shepherd, when Mr. Bishop met her on his return from the National Irrigation Congress.

Engagement Announced

Among the interesting announcements of this week was that of the engagement of W. H. Spurgeon, Jr., to Miss Bee Abbott of Pomona. That Dan Cupid had long ago concluded to unite the destinies of these two, has been suspected, so that the announcement of this week was somewhat anticipated.

That Supper Tonight

The cafeteria supper to be given tonight at the First Presbyterian church will be one of the pleasant affairs for which the Ladies' Aid Society of that church is so often responsible, and will undoubtedly be well patronized. The hours of serving are from 5 to 7 p. m.

SEDGWICK W. R. C. HAD MEETING YESTERDAY

(Mrs. H. Clay Kellogg)
Despite the rain, enough W. R. C. members turned out yesterday to insure a profitable and pleasant meeting. Everyone has come to enjoy the rain in Southern California, on all sides you hear, "This is a fine rain!" until one would think all the loyal citizens of Santa Ana were farmers.

This splendid rain did not dampen the ardor of the W. R. C. in their good work. Many sick visits were reported and plans laid to hold a McKinley tea at G. A. R. hall on the afternoon of Wednesday, Jan. 27. A fine program will be prepared by the Corps Patriotic Instructor and Past Department President Mrs. Alice A. Yount. Light refreshments will be served under the direction of Mrs. Marie C. Johnston, chairman of the tea.

The public is always cordially invited to these teas, of which the proceeds are for the benefit of the relief fund used to assist the veterans and their dependent ones, a cause to which every loyal citizen who enjoys our free and independent country, loves to contribute.

The ladies expect also to aid Sedgwick Post in every way they can in making the 100th Anniversary of Lincoln's birthday a memorable one, and, of course, will attend the entertainment to be given by the Post at Spurgeon's hall on the evening of the 12th of February.

Ladies of the W. R. C. and comrades of the Post have been requested by the superintendent of schools to visit the public schools during their Lincoln's birthday exercises, and the citizens and parents who attend these exercises may well expect a treat. The children will praise Lincoln in song and story. Their reverence and love will take a new growth for that great spirit, which so greatly served men, because it so greatly loved them, and so greatly loved them because it so greatly understood. He loved his fellow-men, that's why his name leads all the rest.

Leigh Hunt's "Abou Ben Adheur" reminds one of Lincoln. He was the embodiment of his own immortal utterance, "With malice toward none with charity toward all."

Cases Are Dismissed

Two of the cases in which D. J. Miller of Long Beach was defendant have been dismissed. One in which the First National Bank of Santa Ana was plaintiff was dismissed yesterday and another in which W. H. Hildebrandt was plaintiff was dismissed today, both cases having been settled.

Dismissal Entered

Dismissal has been entered in the action of the First National Bank of Santa Ana against G. N. and Harvey Miller.

SUPERVISORS WILL TAKE SOME ACTION

(Continued From Page 1)

as nearly so as can be made:

The proposed provision for the county assessor's field deputies would not accrue to his pocket, but it would enable him to employ experienced help. As it is now he finds it hard to get men to work four months only at \$100, using their own rigs. For instance, men who tried it last year, and who, by their experience, are good men, refuse to go on this year at the old salary. The assessor pays out of his \$3500 salary two deputies and for extra help. Suppose his deputies cost him \$1800 a year. That leaves him \$1700 for himself and his extra help. To clear whatever he does clear the entire force of his office is compelled to work until 11 o'clock at night during the busy season. The extra deputy at \$1200 means that he can either push the force and add \$1200 to his present net income, or distribute part of the \$1200 among deputies now paid little enough.

The tax collector's additional help will bring the office salary roll to \$4640 per year. There is no question but what the tax collector, should he get the help, will pocket more money than he does now. He is compelled to hire much help, and the only way he makes a living is by working nights and Sundays. Should he get the help he would be enabled to keep his salary of \$2000 for himself, and could keep ordinary office hours. It is claimed that the six clerks would not all be used if the work did not require them.

The county clerk applies for a superior court deputy at \$115 per month, the amount paid Los Angeles court deputies. The clerk would put an additional man on at once, and would continue to employ a male deputy for his office as now, and who is receiving the highest salary of any deputy in the courthouse. The county clerk would continue to pay for one deputy out of his salary, and he says he would not expect to secure a man for less than the amount he now pays his deputy, finding that it is necessary to have a No. 1 man to handle the business of the office, it being more than merely clerical work. Should a deputy, for instance, enter a default on the request of an attorney willing to bluff a clerk, there would be much confusion and trouble caused, and the blame would be on the clerk. That is one of many incidents that might arise, showing that capable men must be employed.

The difference in the amount of money the clerk might clear from his office would consist in the amount he might save in extra help during the time of getting up great registers.

The auditor now gets a salary of \$2000, and \$40 per month is paid by the county for a deputy in his office. The length of time when extra help is needed in the office is short. Of his \$2000 salary a very large proportion

is clear. The request is for a deputy at \$1200. What an extra deputy would do to keep himself busy during a large portion of the year might interest a committee making an investigation. With the extra deputy the auditor would be able to keep all his \$2000. So the question at this point is whether or not that salary is too high for the auditor to make clear. The general opinion among business men is that it is little enough for the ability and responsibility involved, but the question is raised—couldn't he, and doesn't he, clear nearly his salary without a deputy?

The four offices dealt with above ask for aid in the way of extra deputies. The surveyor asks for what might be construed as a raise in salary, and this probably could not be allowed during his term of office. A change from a fee basis to a salary basis probably would be considered an increase of salary. Should it be made the surveyor would have no less than \$600 per year more income from the office than he had in 1908.

When compared with salaries paid county officers in other counties, there are other officers in the Orange county courthouse that might be considered underpaid. There is the district attorney's office with \$2500 per year and a deputy and stenographer to pay, and the sheriff claims his office is not nearly the fat thing it might be. He has three deputies to pay.

A comparison of some of the salaries paid in Orange county with salaries paid in counties of this state of about the same class would prove interesting. Orange county is a county of the fifteenth class. Santa Cruz, thirteenth class, pays its clerk \$3600; Mendocino, fourteenth class, \$2700 and extras; Monterey, sixteenth class, \$3000; Santa Barbara, seventeenth class, \$4900; Tulare, eighteenth class, \$4000.

Santa Cruz pays its auditor \$2000; Mendocino, \$2200; Monterey, \$2400; Santa Barbara, \$3280; Tulare, \$3000. Santa Cruz pays its tax collector \$2350; Mendocino, \$2200; Monterey, \$1500; Santa Barbara, \$2000; Tulare, \$3600. Santa Cruz pays its assessor \$1800; Mendocino, \$3000; Monterey, \$4000; Santa Barbara, \$3100; Tulare, \$5000.

These figures, however, do not mean much, as conditions vary as to systems, volume of business, help allowed by the supervisors, etc.

ARE TO NOMINATE ON FEBRUARY 1

Mass Meeting for Naming Candidates to be Held at Huntington Beach

HUNTINGTON BEACH, Jan. 21.—Nominations for city trustees will be made at a mass meeting called for Monday evening, February 1. Candidates will be nominated for the offices of city marshal, city clerk and city treasurer at the same time. Many candidates for nomination have already announced themselves.

Officers elected by the First National Bank of Huntington Beach are: A. L. Reed, president; W. T. Newland, vice-president; S. L. Blodgett, cashier; S. Townsend, H. S. Hazeltine, J. F. Heartwell, T. B. Talbert, D. M. Cate, C. H. Howard, R. Courreges and D. Brush; Ralph E. Graves was elected assistant cashier.

WILL TEST MARSH LAND FOR CROPS

KLAMATH FALLS, Ore., Jan. 22.—Arrangements are being made by the Reclamation Service to begin work on the swamp land experimental farm. The ensuing year will be devoted chiefly to determining the methods to be used in reclaiming the swamp lands and in irrigating them afterwards. The experimental farm comprises 160 acres situated near Holland, the present terminus of the California Northwestern Railway. The land is diked in with a solid embankment.

TIDES ARE TEARING AWAY FOUNDATION

Unusually high tides at Newport Beach have torn out two-thirds of the Peabody pavilion foundation. C. S. Forgy said today it was the highest tide he had ever seen there. A current seems to have rushed the water further in at Newport than it did at Balboa.

RUTH BRYAN LEAVITT APPLIES FOR DIVORCE

SAN DIEGO TO GIVE IT AID

Automobile Club Members Will Use Appropriation in Making a Boulevard

The Automobile Club of Southern California, which has a representative, L. F. Block, here at this time working up a membership, through its membership at San Diego expects an appropriation from the San Diego council for boulevard marking. The San Diego Union says of it.

"That an appropriation of \$125 be made for the purpose of assisting the Automobile club in marking the new city boulevards that are being constructed and have been completed under the bond issue, was a recommendation made yesterday afternoon by the street committee of the common council. This action was taken on the request of Rufus Choate and Fred W. Jackson, directors of the local branch of the club, which is spending several hundred dollars throughout Southern California in erecting signs on all the main thoroughfares.

"Messrs Choate and Jackson stated to the committee that it will require between \$200 and \$300 to erect the signs and guide posts on the boulevards within the city limits.

"The Automobile club merely wants the city to pay a portion of the original cost," said Mr. Jackson. The club is taking up the work and will erect the signs. The amount given by the city now will complete the cost, because the club will stand the rest of the expense and maintain the signs after they are put up.

"This particular appropriation will be used for the signs on the new boulevards through the rural districts but within the city limits. Each sign will be at the top of a ten-foot post, and will cost approximately six dollars apiece. This is entirely separate from

the action taken by the council at its meeting Monday night, authorizing the purchase of 500 street signs at a cost of 43 cents each. Both kinds are made of enamel work, but the big difference in cost is due to the difference in size. The boulevard signs, too, will each require an individual post, while the street signs will be fastened to telephone, electric railway and other posts.

"When these boulevard signs have been installed according to the plans of the Automobile club, a perfect stranger will be able to find his way to the various interesting points in and about the city without the slightest difficulty."

SOME TALK OF CONTEST

Not Likely That There is Much Serious Intention of Bringing One

There is some talk at Fullerton of contesting the result of the vote on the saloon question by which Fullerton remained "dry" with but two votes to spare, 186 to 184, but it is not thought that the talk has serious backing. On election day a large number of Mexicans registered for that election only, were challenged by the anti-saloon representatives on the ground that the men could neither read nor write. These challenges were made after consultation with the district attorney, and there seems to be no question but what the challenges were in accordance with the law. Both the Fullerton papers and many residents who were on opposite sides during the fight have advised the citizens to bury the hatchet, accept the verdict and get together in boosting the town.

Try a Register "Want Ad."

NEW MAN FOR YELLOW SOX

Householder Leads the Fielding Column With Perfect Percentage

For some time Manager Crolic has been negotiating with G. W. Ellis, better known to the fans as "Rube." The manager was made happy yesterday morning when he received a postal card from Ellis, stating that he would be with the Yellow Sox next Sunday if the weather permits. The following dope will give the fans an idea how their favorites are fielding in the league.

Householder, who was formerly captain, and who was with the local team for nine games leads the percentage column with a perfect percentage, having accepted 8 chances without a misplay. Following him are seven more men who also have a perfect percentage, but have only played a few games and so cannot be given the real credit of leading the bunch.

Guy Meats, the popular catcher of the Yellow Sox, should really have the credit of leading the column. Meats is one of the best catchers in the league, if not the best, and would no doubt lead all the catchers in the league; for Meats, who has been nicknamed "Johnny Kling" by his admirers, has played in twelve of the games this season, has taken one hundred thirty-two chances, of which he has only made two misplays.

There are several men who field over the .900 mark, but those who are nearest to the popular catcher are La Longe, Mott, Henline, Johnson and Robinson. Of the eleven remaining names there are five who field above the .800 mark. Donovan, the popular third sacker, leads this division of the averages.

Read the following figures and you will find out what the bunch have been doing:

RHEUMATISM EASILY OVERCOME NOW

Get the Ingredients and Mix Them Yourself to Relieve Dread Disease

Recent hospital reports show that the dread disease, rheumatism, is steadily increasing throughout the country. All known means of relief are being suggested to save the great amount of suffering this winter, especially among those who are not in a position to pack up and visit the noted health resorts to be treated. Recent tests prove rheumatism not exactly a disease in itself, but a severe symptom of kidney trouble, a condition caused by clogged up pores of the eliminative tissues in the kidneys which fail to filter the poisonous waste matter and uric acid from the blood, permitting these substances to remain in the veins and decompose, usually settling about the joints and muscles, causing the intense pain, swelling and stiffness of rheumatism.

The following simple home treatment will cure rheumatism and is harmless and inexpensive, and so simple that anybody can mix it at home.

The ingredients are: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Go to any good prescription pharmacy and get these three harmless ingredients and mix them by shaking in a bottle, taking

ing as a dose a teaspoonful after each meal and again at bedtime.

There is nothing better in the world for backache, kidney and bladder trouble, too. Such symptoms as frequent and painful urination, soreness, weakness, general and nervous debility are caused by certain acids and poisonous waste matter, decayed tissue, etc., in the blood, which the kidneys will clear and purify after a few doses of this prescription.

TUBERCULAS HUMANITIES

San Francisco Establishes a Clinic for Charity's Sweet Sake

The San Francisco Call of Tuesday speaks in inspiring phraseology of a new and charitable movement lately started in that city, which should be chronicled and emulated in every community where possible. The Call says:

"San Francisco's first tuberculosis clinic was opened yesterday and dedicated without ceremony to its broad humanitarian purpose. More potent in its behalf than studied words was the presence of twenty sufferers, to whom it had come as a message of joy and hope. There were men with the blight of the disease, women bearing the added burden of illness and children; young girls and boys, victims when they had just begun to live; all of humble lot, destined before to fight the scourge in darkness but lifted now by a wise charity and modern science into the light of probable recovery.

The twenty applicants for treatment gathered at the temporary quarters at 1734 Stockton street, on the slope of Telegraph Hill. There they found a physician ready to examine them, nurses prepared to give skilled aid, and all for the asking. On some of the faces was written gladness they had not known for months, and it was with a hearty "Thank you!" that they received the advice accorded them."

The Call states that the clinic is merely for examination and the patients will be treated at home under watchful medical care.

Preventative methods have been adopted and as soon as possible the open air cure, such as has proved successful in the East will be taken up in San Francisco. Prominent physicians give their services free and leading women are interested in furthering the movement. As far as possible the physicians will insist on the patients taking the open air treatment at home, and the occupying of separate bedrooms to avoid the spread of the disease. Porches, yards and roofs will be utilized under the direction of trained nurses.

Child's Exercise

If your baby has been taking his morning exercise in the form of a walk, with a baby carriage close by, in case he gets tired, do not deprive him of all exercise during the fall and winter by making him ride in his carriage all the time. If a child is warmly dressed there is no reason why he cannot walk when the pavements are dry if he has reasonably thick soled shoe on. The majority of children 2 years old and over derive much benefit and pleasure from the morning walk. If the sidewalks are damp, then the child may be wheeled in the carriage, for the soles of children's shoes are not made very thick and arthritic or rubbers are rather hard for children to manage.

Dr. George A. Dorsey, curator of anthropology in the Field museum of natural history, has returned to Chicago, after a trip around the world. Dr. Dorsey entered regions never before penetrated by a white man. The result of his trip will mean much to the Field museum, for already 60 large cases of ethnological specimens have arrived at the museum.

"Dans La Bataille," by M. Pichon, French minister of foreign affairs, and Georges Normandy, is about to make its appearance. Since he has accepted the portfolio in the cabinet, M. Pichon has not had time to do much writing. In fact, he has not written the present volume, either. It is a collection of articles written some years ago and compiled by M. Normandy. M. Pichon has done nothing except correct the proofs of the volume.

—Night school at the Business College.

WHY IT SUCCEEDS

Because It's for One Thing Only and Santa Ana People Appreciate This

—Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills do one thing only. They cure sick kidneys. They cure backache, every kidney ill. Here is Santa Ana evidence to prove it.

F. M. Gilbert, of 1067 West Third St., Santa Ana, Cal., says: "Doan's Kidney Pills have proven a very satisfactory remedy in my case as the use of less than one box absolutely cured me of pain in my back, especially over the left kidney, and I have had no recurrence of the trouble since. During the spring and fall for several years I was subject to attacks of kidney complaint and at these times the secretions from the kidneys were of a very high color. As before said, Doan's Kidney Pills procured from Tubbs & Co.'s drug store, quickly banished the pain and restored the kidney secretions to a normal condition. I believe my experience with Doan's Kidney Pills warrants me in endorsing them as a genuine kidney remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

EXCURSION TO LINDSAY

Queen of the Orange District

TUESDAY, JAN. 26, AT 5 P. M.

We leave over the Southern Pacific for the great Lindsay district, the tried and proven orange country.

This is your opportunity to see the orange lands that will double in value in a very few years, not because we say so, but because you will get the facts and figures while there from the people engaged in raising oranges, that will convince you.

We claim and can demonstrate the following points of superiority over the Southern and older orange districts.

- 1st. Better and more uniformly suitable soil.
- 2nd. More abundant and cheaper water.
- 3rd. Cheaper land, about one-third to one-half less.
- 4th. No insects, scale, smut or diseases.
- 5th. Cheaper cost of producing oranges.
- 6th. Earlier ripening, about six to eight weeks.
- 7th. Better oranges, in size, color, weight, form, flavor and keeping qualities.
- 8th. More rapid and thriftier growth of trees, and therefore heavier and better fruit.
- 9th. Absence of fogs, and a pure dry atmosphere, so necessary in the growth.

We own and control the lands we offer for sale, and can give the lowest price and arrange terms to suit. Our lands are divided in 10 and 20 acre tracts, all near town and the packing houses.

Fare for the round trip only \$10. We travel during the night, so lose no time and spend one or two days right on the ground.

Plan to go with us next Tuesday. Remember the day. You will never regret the trip. A grand chance to see for yourself. Address us for full particulars.

J. D. Wilson Land Co.

E. K. WEISS, Special Agent.

What Makes a Bank Strong?

In judging a bank, always remember that it is Capital, Surplus and Undivided Profits that give security to the depositor, because that money is what stands between you as a depositor and any possible shrinkage in the securities held by the bank.

Few institutions in the country have a larger margin of safety than the

First National Bank Of Santa Ana

which, with the watchful interest of a very capable and conservative Board of Directors and the constant inspection of the Bank Examiner, has built up a strong institution—one whose

Capital, Surplus and Profits of \$300,000

give assurance of absolute security and account for our more than \$900,000.00 deposits.

The Santa Ana Savings Bank, under the same management, pays four per cent interest on time deposits, issuing certificates of deposit for six months and renewable, in sums of \$50 up.

LOS ANGELES PRODUCE MARKET

Potatoes are the principal topic among market men. From a market that was very weak during the final week of December, and the first week of this month, the turn to one very firm and rising like a sky rocket, seems almost impossible. It is a fact however, and Highlands yesterday commanded a bottom figure of \$1.65. Advances in the past two or three days have not been due entirely to natural causes, an increased demand, better shipments east or any kindred things, but to the destruction of a vast amount of potatoes by the floods in the north. A telegraphic report from Sacramento, yesterday, announced the destruction of 75,000 sacks of Highland potatoes which were stored in a warehouse on Venice Island in the Sacramento river, and which were washed away. Similar reports from other sections, where potatoes were still in the ground, or in warehouses, have been received, and as a result dealers are attempting to get every potato available in hand and hold for the higher figures that are still to come. Yesterday's receipts, according to railroad reports were only 955 sacks.

The egg market was firm and case count showed a tendency to go from 34 to 35 cents. Canned stock sold from 38 to 39 cents while eastern stock was just about unobtainable. One small arrival of less than a dozen cases of eastern was reported by express. Local arrivals by rail were 96 cases.

Butter is scarce and that on hand is not of the best quality. Prices on creamery extra are running from 77 1/2 to 80 cents and there were some rumors of a 2 1/2 cent advance above the top quotation. Eastern butter is selling well at 70 cents a two-pound roll. Cooking butter is bringing 25 cents flat. Arrivals by express were 17,260 pounds.

Cheese of the dairy variety went up a cent. The price was 16 and is now 17. Northern fresh also was more firm and eastern varieties sold best of the list.

The driving rain kept a great number of gardeners from driving in and as a result the market was almost bare of vegetables. Naturally prices were up for the day. They will drop back to their normal position today unless the rain continues to prevail. Cauliflower and cabbage were among the more affected vegetables. Oranges were slow in arriving and there was a better demand for lemons. Fancy packed stock from the large ranches to the north, is not coming in as heavily as expected, and as a result dealers are forced to use any lemons obtainable.

PRICES CURRENT

EGGS—Fresh California ranch, candied selected, 38@39; fresh ranch local case counts, 34@35; eastern fresh, 37 1/2; candied, 39@40; eastern storage, 35@37.

LEGAL NOTICES

No. 4015.
Notice of Sale of Real Estate
In the Superior Court of the County of Orange, State of California.
In the matter of the estate of Floy S. Gearhart, deceased.

Notice is hereby given that in pursuance of an order of the Superior Court of the County of Orange, State of California, made on the 8th day of January, 1909, in the matter of the estate of Floy S. Gearhart, deceased, the undersigned administrator of said estate, will sell at private sale to the highest bidder for cash, lawful money of the United States, as provided by law and subject to confirmation by said Superior Court, on or after the 28th day of January, 1909, all the right, title, interest and estate of the said Floy S. Gearhart, at the time of her death, and all the right, title and interest that the estate has by operation of law or otherwise acquired other than or in addition to that of the said Floy S. Gearhart, at the time of her death, in and to all those certain lots, pieces or parcels of land situate, lying and being in Orange county, State of California, and more particularly described as follows, to-wit:

The southeast quarter (S. E. 1/4) of the southwest quarter (S. W. 1/4) of the northwest quarter (N. W. 1/4) of Section 9, township 5 south, range 10 west, S. B. B. & M.

Bids for the above described real estate must be in writing and will be received at any time after the first publication of this notice, and before making said sale, and said bids may be filed with S. M. Davis, in the District Attorney's office in the County Court House, Santa Ana, Orange county, California, the attorney for said administrator.

Terms and conditions of sale: Ten per cent of the purchase price payable on acceptance of bid and the balance on confirmation of sale by said Superior court.

Dated January 11, 1909.

A. R. GEARHART,
Administrator of said Estate.

Pacific Coast Soda Company
—Principal place of business, Santa Ana, Orange County, Cal. office of the company, No. 110 1/2 E. Fourth St., in said city.

Notice is hereby given that at the meeting of the Board of Directors of the Pacific Coast Soda Company, held on the 6th day of January, 1909, an assessment of Two Cents (.02) per share was levied upon the capital stock of the corporation, payable on or before the 6th day of February, 1909, to the Secretary of the Board of Directors of said company, at the office of said company hereinabove specified.

Any stock on which this assessment shall remain unpaid on the 13th day of February, 1909, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Saturday, the 6th day of March, 1909, at the hour of 10 o'clock a. m. of said day, at the above entitled office, to pay the delinquent assessment, together with cost of advertising and expenses of sale.

By order of the Board of Directors.
MIT PHILLIPS,
Secretary Pacific Coast Soda Co.
No. 110 1/2 E. Fourth St., Santa Ana, California.

No. 408.
Notice for Publication of Time for Proving Will, Etc.

In the Superior Court of the County of Orange, State of California.
In the matter of the estate of C. W. Marden, deceased.

Notice is hereby given that Friday, the 5th day of February, 1909, at 10 o'clock a. m. of said day, at the Court Room of this Court, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of J. P. Greeley praying that a document now on file in this Court, purporting to be the last will and testament of the said deceased, be admitted to probate, that Letters Testamentary be issued thereon to him at which time and place all persons interested therein may appear and contest the same.

W. B. WILLIAMS, County Clerk.
Dated January 20, 1909.

Annual Meeting of Stockholders of Pacific Coast Soda Co.

—The annual meeting of the stockholders of the Pacific Coast Soda Co. will be held at the company's office, No. 110 1/2 E. DEAD LIONS MEAN MORE LIVE DEER

District Attorney Receives In-
teresting Letter From Chief
Deputy Vogelsang

District Attorney Davis, having re-
ceived inquiries from Andrew Joplin
of Trabuco canyon and Mrs. Morris
of Hot Springs canyon, wrote to the
state fish commission to see if there
was a bounty on mountain lions' scalps,
and has received a reply. Joplin and
Mrs. Morris' son have mountain lion
scalps on which they have not yet re-
ceived the \$20 bounty. The commission's
letter follows:

San Francisco, Cal., Jan. 18, 1909.

Dear Sir:—We are in receipt of
your letter of Jan. 18th. In answer
to your query, we will inform you
that the \$20 bounty paid by this
commission for the scalps of moun-
tain lions is a voluntary offer on the
part of the commission. This course
was adopted after careful considera-
tion of the reports that had been
brought to us by the hunters and
other people throughout the state,
who stated that as a result of obser-
vations and experience the mountain
lion was the worst enemy of the deer
in the state.

Hunters who have studied the hab-
its of these animals for years, inform
us that a mountain lion kills on an
average of three deer a week and
they have been known to kill as
many as seven during one week.
Since we began paying the bounty
on California lions, we have received
523 scalps. Estimating that a lion
kills only one deer a week, these 523
animals in the course of a year would

is no small item of the busi-
ness. We give you the best
tablet for a dime and our
regular 5c envelope is the
other fellow's leader.

have gotten away with 27,000 deer.
This estimate of one deer a week is
more than conservative. It is prob-
able that the hunters' estimate of
three deer a week destroyed is more
nearly correct.

We are confident that with the ex-
termination of the mountain lion, the
worst enemy the deer has (next to
man) would be removed and the
game would at once show a decided
increase. We do not require that the
entire skin be sent us. All that we
need is the scalp of the lion accom-
panied by a detailed account of the
killing and an affidavit properly ac-
knowledgeed. We are sending you
with this the form of blank that we
require should be used.

Yours Respectfully,
CALIFORNIA FISH COMMISS'N.
Chas. A. Vogelsang, Chief Deputy.

ACREAGE OF GRAIN BIG IN THE NORTH

Outlook for Heavy Crop in the
San Joaquin Valley is
Very Bright

FRESNO, Jan. 22.—The recent
rains in the San Joaquin valley have
made the outlook for the grain crop
next summer exceedingly bright.
Planting was carried on on a big
scale in this county up to the com-
ing of the rain, the weather being
such that the planters could plow
right up to the time of the rain. Ac-
cording to an estimate given yester-
day, the acreage in Fresno county
this year will be about 25 per cent
larger than it was last year.

The high price of grain during the
past few months has led many farm-
ers to plant on land which has been
unused for several years and the
prospects for a good crop are ex-
ceedingly bright. A large portion of
the planting has already been done,
in fact practically all the grain has
been planted. With the two heavy
rains which have just covered the
valley, the farmers are now satisfied
and only a few light showers be-
tween now and the first of May are
needed to bring the grain to a high
standard.

Not only in Fresno county has
there been extensive grain planting,
but throughout the entire San Joa-
quin valley, the grain acreage has
been considerably increased, a fact
which presages lower prices for hay
and grain when the crop matures.
From now on, however, there will
be very little planted and all that
will be awaited will be the maturing
of the 1909 crop.

CHINESE RIOTING IN THE TRANSVAAL

JOHANNESBURG, Transvaal, Jan.
22.—There was an outbreak of fierce
rioting at the Village Deep Mine yester-
day, in which six Chinamen were
killed and a score injured.

The Chinese laborers at the mine
have been in an ugly temper for some
time. This morning 800 men refused
to go to work and started wrecking
the compound. The police made use
of their firearms and order was re-
stored.

BIG CORONA DEAL

CORONA, Jan. 22.—A realty deal
for 5500 acres, involving a consid-
eration of between \$350,000 and \$400,-
000 has been closed. The grantors
are W. I. Hollingsworth and W. J.
Hole, who are selling the tract to a
Los Angeles syndicate.

RELIEF BENEFIT OPENS WELL

LOS ANGELES, Jan. 22.—The Ba-
zaar of All Nations for the benefit of
the earthquake sufferers had an
auspicious opening last night, not-
withstanding the rain.

These Cool Mornings

Start the day right with a hot
breakfast in a warm room. An
oil heater is just the thing. Can

ANTI-JAP MEN FOUGHT FOR BILL TODAY

(Continued from Page 1.)

answer questions regarding the
purposes of the organization, by a vote
of forty-six to twenty-nine, it instructed
the judiciary committee to probe the
affairs of the bureau.

A transcript of the testimony of An-
derson before the Rules committee
presented to the house today shows
that F. J. Heney, Rudolph Spreckels,
and ex-Mayor Phelan of San Francisco
and Dr. Hains of Los Angeles are in-
terested in the "Peoples Lobby." It
was also admitted that the bureau is
authorized by the Direct Legislation
League.

SACRAMENTO, Jan. 22.—The anti-
Japanese measure, looking to the se-
gregation of undesirable persons into
districts by the municipalities of
which they are inhabitants, was
pending today before the assembly,
following its favorable report by the
public morals committee yesterday.
The bill is aimed directly at the Ja-
panese.

After a bitter discussion the assem-
bly decided to bring the bill up for
consideration on Wednesday, when
the other anti-Japanese legislation is
to be considered.

The governor last night received a
communication from Secretary Root,
but has not disclosed its contents.
The communication is one of several
sent to Governor Gillett by Secretary
Root marked "Confidential."

\$5,000,000 PHONE LINE
FROM BOSTON TO OMAHA

BOSTON, Jan. 22.—Plans for the
construction of an independent long-
distance telephone system from Bos-
ton to Omaha and Lincoln, Neb., call-
ing for an expenditure of \$5,000,000,
will be perfected, it is said, during
the conference of Independent Tele-
phone Company officers, which will
convene in this city on Saturday next.

ANOTHER INTERVIEW FROM SECRET AGENT

SAN FRANCISCO, Jan. 22.—While
the attorneys in the Calhoun case
were wrangling yesterday over the
revelations about men who had been
approaching juror, a secret agent
tried to interview an employee of Win-
ford King, manager of the Pacific
Coast Cash Register Company, accord-
ing in King in court today. King,
who was being examined for jury
duty, said the stranger failed to get
information from his employee.

When he left he alluded to the
"League" and King said he believed
he meant either the Good Government
League of the League of Justice.

TURKISH LIBERTY WAS THREATENED

By Conspiracy to Overthrow
the Constitution; Sultan
Is Guarded

CONSTANTINOPLE, Jan. 22.—The
guards about the Yildiz Kiosk, the
Sultans' palace, were doubled yester-
day to guard against an attempt on
the life of the Sultan as the result
of the discovery of a conspiracy to
overthrow the constitution, involving
30,000 reactionaries throughout the
empire.

The discovery revived the senti-
ment that Turkish liberty is not se-
cure as long as Abdul Hamid is on
the throne.

VALLEJO MAY BUILD BIG STORAGE PLANT

VALLEJO, Jan. 22.—The city of Val-
lejo may build a second reservoir
near town; either that, or it will en-
large the Fleming Hill reservoir. This
was practically decided upon at a
meeting of the city trustees last night,
who have gathered wisdom from the
troubles brought on by the present
storm. The city engineer has been in-
structed to prepare plans for a struc-
ture to cost about \$25,000 and to hold
about 15,000,000 gallons. This he will
do and also consider the feasibility.

LOS ANGELES OPPOSES ANTI-JAP LEGISLATION

LOS ANGELES, Jan. 22.—The Mer-
chants & Manufacturers' Association,
which includes in its membership
more than 600 leading firms and cor-
porations of the city, yesterday passed
a resolution strongly condemning
any state legislation involving the
rights of aliens, especially the Japan-
ese.

The resolutions declare that the
Federal government is fully capable
of coping with the question.

YACHT CLUB DEPLORES THE DEATH OF C. L. TUTT

AVALON, Jan. 22.—A message
from New York stating that Como-
dore C. L. Tutt, of Colorado Springs,
died last evening of heart failure
while returning to his home, has
caused regret here. Only last even-
ing the Sophia Yacht Club held its
annual "commemoration celebration"
for the founder of their club and his
deceased daughter, Sophia.

PURPLE SCALE ROUSES WISH FOR QUARANTINE

SAN BERNARDINO, Jan. 22.—A
box of Florida oranges, declared to
be reeking with purple scale, is al-
leged to have been received by ex-
press at Riverside, and so thoroughly
have the orange growers of that sec-
tion been aroused that an appeal for
co-operation for the passage of a
strict quarantine law has been made
to chambers of commerce of this
county.

STORM RAGES DOWN COAST BRINGING WRECK

(Continued from Page 1.)

sion of the Oregon Railway and Nav-
igation company have been cancelled.
In all the country north of here the
damage is enormous. Many docks
along the Columbia are destroyed by
ice.

TRAINS AT STANDSTILL IN WESTERN MONTANA

MISSOULA, Jan. 22.—The Northern
Pacific is at a standstill in Western
Montana today as a result of floods.
A great section of trackage is out near
Eddy. Two bridges are expected to
go.

ISLANDS IN VALLEY ARE UNDER WATER

SACRAMENTO, Jan. 22.—Although
there is no further danger of a flood
in this city, the island district in the
lower Sacramento river is in a sad
plight today. In addition to Venice,
and the lower Sherman islands, re-
ported submerged yesterday, the
Twitchell and Jersey islands, besides
several smaller ones are under water
today. The islands include over nine
thousand acres under cultivation. The
Brannan island is expected to be in-
undated, and Tyler island is endan-
gered. Only Andrus, Grand, Randall
and Bradford islands are reported safe
this morning and it is feared that if
the conditions do not improve that
they will be flooded.

INUNDATION IS NOW THREATENING PORTLAND

PORTLAND, Jan. 22.—A downpour
today following the frightful storm of
yesterday, when all the lower docks
were flooded, and melting snow,
threatens the lower levels surround-
ing this city with inundation. The
Willamette river is on the rampage.
Water is backing up from the Colum-
bia river, which is here twenty feet
above the normal. The situation is
serious. The river is still full of drift.
It is feared the wholesale districts will
be flooded badly.

FLOOD RECEDING FROM STREETS OF STOCKTON

STOCKTON, Jan. 22.—The flood
which inundated Stockton last night
is receding rapidly today. Main
street was free from water at 9 o'clock
this morning, and it is believed the
entire city will be practically dry late
this afternoon. The water lacked a
foot of reaching the high mark of
1906, when the city was inundated.
